

Angie Paola Garro Martínez

Software Engineer | ✉ moondev7ag@gmail.com 📞 +(506) 6478-8712

Software Engineer specializing in Software Development and Data Analysis, with experience in various programming languages, frameworks, and relational databases. I have experience in project execution and teamwork, both in agile and traditional methodologies, as well as in roles related to development, business intelligence, and data analysis.

WORK EXPERIENCE

Full-Stack Software Development and Data Analyst

FT Technologies , July 2024 - Present

Developed applications in a professional environment using C#, .NET Framework, .NET Core, and JQuery, implementing the MVC design pattern. Collaborated in teams using both traditional and SCRUM methodologies, gaining experience in all stages of the software development lifecycle. Worked as a Full Stack Developer, managing and developing APIs, and enhancing expertise in back-end and front-end integration.

Designed and implemented interactive dashboards using Power BI, achieving intermediate-advanced proficiency to provide actionable insights for business decision-making. Automated workflows and processes with Power Automate, integrating Power BI, SharePoint, and Azure services to optimize operations. Managed relational databases using SQL, including data extraction, transformation, and cloud-based connections through Azure. Collaborated with cross-functional teams to implement business intelligence strategies, improving data visualization and reporting accuracy.

IT Support Intern

Ernst & Young , Mar 2023 - Sept 2023

Provided IT support, troubleshooting errors, and resolving issues across various systems. Utilized business intelligence tools and techniques to analyze data and optimize processes. Collaborated with cross-functional teams to manage projects focused on process optimization and efficiency. Developed methods and systems to ensure secure document control and permission management.

EDUCATION

English Language Certifications English Academy	Jan 2025 - In Progress
Bachelor of Software Engineering Universidad Cenfotec	Jan 2021 - In Progress
Higher Technician in Software Development Universidad Cenfotec	Jan 2021 - Nov 2023
Middle Technician in Accounting and Finance. CTP Bolívar	Feb 2018 - Dec 2020

CERTIFICATIONS

SCRUM study: Accreditation Body for Scrum and Agile, Scrum Fundamentals Certified (SFC).

CISCO: CCNA Introduction to Networks.

SKILLS

Techniques

- Intermediate to advanced experience in SQL Server, MySQL. Basic knowledge of PL/SQL.
- Experience in implementing .Net Framework, .Net Core, and JQuery.
- Proficient in Microsoft Office programs - Intermediate level.
- Proficient in Azure DevOps, Microsoft Azure, and Microsoft Dynamics 365 Business Central.
- Intermediate proficiency in Power BI and SharePoint, with additional knowledge in Power Apps and Power Automate.
- Basic knowledge of Macros programs.
- Programming in Java, C#, JavaScript, HTML, CSS, and PHP.
- Knowledge in Angular and SpringBoot.

Soft

- I orient my work under perseverance, respect, excellence, loyalty, leadership, and organization.
- Effective communication and conflict resolution.
- Working with leadership, adaptation, innovation and self-taught management.

LANGUAGES

Spanish: Native

English: A2 Level
